PETFURDO ARMY PETROLEUM STORAGE, HUNGARY

This report is a partial answer to DIA requirement DIAXX 63-84, to verify the location of selected military installations in Hungary and to perform a photo analysis to determine function, number and dimensions of buildings, to estimate troop capacity, to identify and describe related training areas and facilities, and to confirm or negate ammunition and POL storage.

Photography of [REDACTED] was used for the identification and mensuration of the buildings and storage tanks. KEYHOLE photography of [REDACTED] covers the storage area and confirms the three large POL tanks; however, poor image quality precludes a more detailed analysis of the area.

The installation described below is shown in Figure 1.

Coordinates: 47-10-10N 018-07-00E

BE No: [REDACTED] (Petfurdo Petroleum Storage Army Partly Underground)

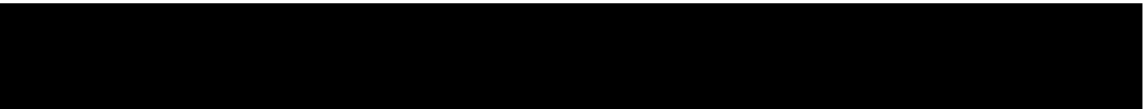

Troop capacity: not applicable

This rail-served POL storage area 0.7 miles north of Petfurdo covers approximately 250 acres and contains:

- 3 POL tanks, each 60 feet in diameter, approximately 15 feet high, and each enclosed by a fire wall
- 15 ground scars possibly for additional POL tanks
- 10 miscellaneous support buildings ranging from 100 by 40 to 40 by 40 feet.
